B MATHEMATICS. NATURAL SCIENCE

Summary of the contents

B. 0 Natural sciences: General ........................................... 4
B. 1 Questions of natural sciences ...................................... 4
B. 2 Mathematics .......................................................... 5
B. 3 Physics ............................................................... 7
B. 4 Chemistry ............................................................. 9
B. 5 Astronomy ............................................................ 11
B. 6 Earth sciences ....................................................... 11
B. 7 Geography ........................................................... 11
B. 8 Biology ............................................................... 12
B. 9 Medicine ............................................................. 14

B. 0 Natural sciences: General
B. 010 Bibliographies
B. 020 Biographies. History
B. 030 Journals. Series
B. 040 Reference books. Table works
B. 050 Dictionaries. Abbreviations. Formula directories
B. 060 Teaching aids. Study materials. School books
B. 070 Source directories. Compilations. Conferences. Congresses

B. 1 Questions of natural sciences
B. 10 Questions of natural sciences: General
B. 11 History of the natural sciences
B. 12 Philosophy and theory of natural sciences
B. 13 Nature science in relation to other subjects
B. 14 Methods and techniques in the natural sciences
B. 15 Nonlinear dynamics. Chaos theory. Synergetics. Self-organization in nature
B. 16 Education. Job. Organizations
B. 17 Natural sciences: other
B. 2 Mathematics

B. 20 Mathematics: General

B. 201 Bibliographies
B. 202 Biographies. History
B. 203 Journals. Series
B. 204 Reference books. Table works
B. 205 Dictionaries. Abbreviations. Formula directories
B. 206 Teaching aids. Study materials. School books
B. 207 Source directories. Compilations. Conferences. Congresses

B. 21 Basics. Overview works

B. 210 Mathematical basics

B. 22 Algebra. Number theory

B. 220 Algebra: General
B. 221 Combinatorics. Graph theory
B. 222 Number theory. Arithmetic
B. 223 Number fields and polynomials
B. 224 Abstract, algebraic geometry
B. 225 Linear Algebra. Matrix calculation, determinants
B. 226 Associative and non-associative rings and algebras. Homologous algebra
B. 227 Group theory and generalizations
B. 228 Topological groups. Algebras and Liesche theory

B. 23 Analysis. Function theory

B. 230 Analysis: General
B. 231 Functions of real variables
B. 232 Measurement and integration theory
B. 233 Functions of a complex variable. Riemann surfaces
B. 234 Functions of several complex variables. Analytical spaces. Holomorphic functions
B. 235 Special functions. Harmonic analysis
B. 237 Fourier analysis

B. 24 Differential and difference equations

B. 240 Differential equations: General
B. 241 Potential theory
B. 242 Ordinary differential equations
B. 243 Partial differential equations
B. 244 Finite differences and functional equations
B. 245  Calculus of variations

B. 25  Integral equations. Integral transformations. Operator theory
   B. 250  Integral equations: General
   B. 251  Integral transformations. Operator theory
   B. 252  Integral equations

B. 26  Geometry. Topology
   B. 260  Geometry: General
   B. 261  Geometry. Fractals
   B. 262  Convex sets and geometric inequalities
   B. 263  Differential geometry. Integral geometry. Tensor calculus
   B. 264  General topology
   B. 265  Algebraic topology. K-theory
   B. 266  Topology and geometry of differentiable manifolds

B. 27  Logic and set theory
   B. 270  Logic: General
   B. 271  Logic and fundamentals
   B. 272  Set theory
   B. 273  Order and lattices
   B. 274  General mathematical systems

   B. 280  Stochastic, statistic: General
   B. 281  Probability theory. Stochastic processes
   B. 282  Mathematical statistics
   B. 283  Graphic methods. Nomography
   B. 284  Numerical Mathematics
   B. 285  Mathematical optimization
   B. 286  Game theory. Mathematical Games
   B. 287  Fuzzy sets. Fuzzy theory

B. 29  Applied Mathematics
   B. 290  Applied Mathematics: General
   B. 291  Applied Mathematics
   B. 292  Computer algebra and numeric computing
   B. 298  Mathematics: Other
B. 3 Physics

B. 30 General

B. 301 Bibliographies
B. 302 Biographies. History. Philosophy
B. 303 Journals. Series
B. 304 Reference books. Table works
B. 305 Dictionaries. Abbreviations. Formula directories
B. 306 Teaching aids. Study guides. Scripts. School books

B. 31 Questions of physics

B. 310 Questions of physics: General
B. 311 Fundamentals of physics
B. 312 Mathematical methods of physics. Computational physics
B. 313 Physical practical course
B. 314 Theoretical physics. Modern physics
B. 315 Experimental physics. Spectroscopy. Electron microscopy
B. 316 Physical metrology

B. 32 Mechanics

B. 320 Mechanics: General
B. 321 Fundamentals and theory of mechanics of solid and rigid bodies
B. 322 Mechanics of fluids

B. 322.0 Mechanics of fluids: General
B. 322.1 Hydrostatic. Fluid movement. Surface phenomena. Osmosis

B. 323 Mechanics gaseous body
B. 324 Mechanical vibrations. Sound waves. Acoustics
B. 325 Mechanics elastic-solid body. Continuum physics

B. 33 Optics

B. 330 Optics: General
B. 331 Theory. Basics. Techniques and methods
B. 333 Nonlinear optics. Quantum optics
B. 334 Laser physics: laser beams. Laser. Types and properties
B. 338 Optics: other
B. 34  Thermodynamics

B. 340  Thermodynamics: General
B. 341  Theoretical basics
B. 343  Effect of heat radiation and heat supply. Flame theory
B. 344  Temperature. Temperature scales. Temperature measurement. Thermometer
B. 345  Thermodynamics: other

B. 35  Electricity. Magnetism. Electromagnetism

B. 350  Electricity. Magnetism. Electromagnetism: General
B. 351  Theory of electricity. General questions of the subject area
B. 352  Static electricity
B. 353  Electrical current. Electrokinetic
B. 354  Electrical discharges. Electric radiations. X-rays. Ionization
B. 355  Magnetism
B. 356  Electromagnetism. Electrodynamics
B. 357  Magnetic fields. Geomagnetism

B. 36  Atomic physics

B. 360  Atomic physics: General
B. 361  General questions of the subject area
B. 362  Physics of the atomic shell

B. 363.1  Nuclear physics
B. 363.2  Plasma physics
B. 363.3  High-temperature physics

B. 364  Molecular physics
B. 365  Elementary particle physics

B. 37  Solid state physics

B. 370  Solid state physics: General
B. 371  Semiconductor physics
B. 372  Crystal physics. Crystal growth
B. 373  Soft matter. Liquid crystals. Disordered and amorphous solids. Glassy state
B. 374  Electronic, magnetic and optical properties
B. 375  Physics of surfaces. Interfaces. Thin layers
B. 378  Solid state physics: other
B. 38  Low Temperature Physics
B. 380  Low Temperature Physics: General

B. 4  Chemistry

B. 40  General

B. 401  Bibliographies
B. 402  Biographies. History
B. 403  Journals. Series
B. 404  Reference books. Table works. Data collections
B. 405  Dictionaries. Abbreviations. Formula directories
B. 406  Teaching aids. Study materials. School books

B. 41  Questions of chemistry

B. 410  Questions of chemistry: General
B. 411  Basic teachings of chemistry. Chemistry for individual occupational fields
B. 412  Mathematical chemistry. Computational chemistry
B. 413  Chemical practical course
B. 414  Chemical laboratory. Chemical toxicology. Experimental technique. Chemistry: other

B. 42  General and physical Chemistry

B. 420  Physical Chemistry: General
B. 421  Atomic structure. Periodic table. Chemical mechanics. Quantum chemistry
B. 422  Nuclear chemistry. Radiochemistry. Radiation Chemistry
B. 423  Electrochemistry. Magnetochemistry
B. 424  Chemical thermodynamics. Thermochemistry. Phase. Solutions
B. 425  Colloid chemistry. Surface chemistry. Interfacial chemistry
B. 426  Structural research. Chemical bond. Solid state chemistry. Stereochemistry in general
B. 428  Photochemistry. Laser chemistry

B. 43  Inorganic chemistry

B. 430  Inorganic chemistry: General
B. 431  Main group elements and their connections
B. 432  Subgroup elements and their connections. Transition elements. Rare earth
B. 433  Preparative inorganic chemistry. Laboratory technology
B. 434  Complex compounds. Coordination compounds
B. 435  Organometallic compounds

F/F 226.0 General. Summary and overall presentations
F/F 226.1 Education in the family
F/F 226.2 Education in early childhood
F/F 226.3 Education outside the family

F/F 227 Leisure education

F/F 23 Education. Higher education. Training system

F/F 230 General information about the school system. Overviews. Individual issues
F/F 231 General education schools and school career
F/F 232 General questions of vocational guidance and career choice transition education - Training
F/F 233 Higher education

F/F 233.0 History of higher education
F/F 233.1 Students and college
F/F 233.2 Distance learning
F/F 233.3 Exams. Exam. Scientific work at universities, colleges and colleges
F/F 233.8 Evaluation of higher education. Economics of education
F/F 233.9 Higher education in international comparison

F/F 234 Rehabilitation education

F/F 234.1 Theoretical and institutional rehabilitation education

F/F 234.1.1 General. Summary and overall presentations
F/F 234.1.2 Learning disabilities education
F/F 234.1.3 The mentally handicapped
F/F 234.1.4 Behavioral disabilities education
F/F 234.1.5 Language special education
F/F 234.1.6 Deaf and hard of hearing pedagogy
F/F 234.1.7 Blind and partially sighted pedagogy
F/F 234.1.8 Body needs education
F/F 234.1.9 Pedagogy for the disabled

F/F 234.2 History of rehabilitation education
F/F 234.3 Comparative rehabilitation education

F/F 234.3.4 International conferences on rehabilitation education

F/F 234.4 Special education disabled
F/F 234.5 Special didactics and teaching methodology
F/F 234.6 Speech therapy
F/F 234.7 Vocational rehabilitation. Vocational integration

F/F 234.7.1 General. Summary and overall presentations
F/F 234.7.2 Institutions of vocational rehabilitation and integration
F/F 234.7.3 Special didactics in vocational rehabilitation and integration
F/F 234.8  Inclusive education
F/F 235  School hygiene
F/F 236  University and school buildings. University and school equipment
F/F 237  Legal aspects in school and higher education

F/F 3  Adults education. Club work. Museum and exhibition
F/F 300  General information on adult education
F/F 301  History of adult education
F/F 302  Theories of adult education
F/F 303  Law and adult education policy
F/F 304  Psychological, sociological, philosophical aspects of adult education
F/F 305  Planning and organizing adult education
F/F 311  Areas of adult education

F/F 311.0  General training
F/F 311.1  Political education
F/F 311.2  Continuing professional education
F/F 311.3  Other areas of adult education
F/F 311.4  Lifelong learning
F/F 312  Didactics and methodology of adult education

F/F 312.0  General. Summary and overall presentations
F/F 312.1  Learning requirements
F/F 312.2  Learning methods and forms of learning
F/F 312.3  Methodical handouts
F/F 312.4  Teaching materials and textbooks
F/F 320  Club work
F/F 330  Museum and exhibition

F/F 4  Book and Librarianship.

F/F 40  General
F/F 400  General. Summarizing and complete overviews

F/F 41  Book customer
F/F 410  History of the book and the writing
F/F 411  Book design
F/F 412  Book production. Book restoration
F/F 413  Bibliophile. Private book collections
F/F 42 Book trade and publishing

F/F 421 History of the book trade and publishing
F/F 422 Bookstores. Publishing practice

F/F 43 Librarianship

F/F 431 History of librarianship and individual libraries
F/F 432 Structure and organization of the library system
  F/F 432.0 General. Summarizing and complete overviews
  F/F 432.1 Library automation. Here also: Cataloging networks.
  F/F 432.2 Library cooperation
  F/F 432.3 Library management
  F/F 432.4 Library branches
  F/F 432.5 Acquisition. Collection Development
  F/F 432.6 Cataloging
  F/F 432.7 Literature development
  F/F 432.8 Stock exchange. Library use
  F/F 432.9 Book Care. Book restoration

F/F 433 Library building. Library technology. Library facility

F/F 44 Bibliography and documentation

F/F 440 General. Summarizing and complete overviews. Here: Contemplation about bibliographies and introduction into bibliographies.
F/F 441 Library catalogs. Catalogs of individual libraries
F/F 442 Information systems

F/F 45 Archive studies

F/F 450 General. Overviews. Questions of career choice and education
F/F 5 Vocational education. Corporate education. Business education

F/F 50 General. Summary and overall presentations
F/F 500 Lexicons. Bibliographies
F/F 501 Dictionaries
F/F 502 Training reports
F/F 503 Commemorative
F/F 504 Documents and sources
F/F 506 Works
F/F 509 Introductions

F/F 51 Legitimization of vocational education and theory education
F/F 511 Training theory
F/F 512 Scientific theoretical positions and arguments
F/F 513 Scientific differentiations in the field
F/F 513.0 Occupational education
F/F 513.1 Vocational education
F/F 513.2 Corporate education
F/F 513.3 Business education
F/F 515 Economics of education
F/F 516 VET research

F/F 52 Constitution of the vocational training system
F/F 520 Education policy
F/F 520.0 Historical representations

F/F 520.2 Educational policy documents
F/F 520.3 Official documents
F/F 520.4 Educational policy of employers’ organizations and trade unions
F/F 520.5 Education policy in Europe
F/F 521 Reform projects in VET
F/F 522 Model tests
F/F 523 Financing the VET system
F/F 525 Legal aspects of vocational education
F/F 526 Institutions. Dual system
F/F 526.1 Vocational schools
F/F 526.2 Operations. Chambers
F/F 526.3 Supra and external facilities
F/F 526.4 A place of learning problems
F/F SCIENCE. CULTURE. CULTURAL STUDIES. EDUCATION SCIENCES

F/F 526.5 Institute for employment research (IAB)
F/F 526.7 Federal institute for vocational education and training (BIBB)
F/F 527 System of professional regulations and professional regulations
F/F 528 Reorganization of the training occupations

F/F 53 History of vocational education

F/F 530 History of apprentice education
F/F 531 History of vocational education

F/F 531.0 General. Summary and overall presentations
F/F 531.1 Commercial school system
F/F 531.2 Technical and commercial education

F/F 54 Industrial system of work and structural change

F/F 541 Modernization theory
F/F 542 Structural change research

F/F 542.0 General. Summary and overall presentations
F/F 542.1 Sectoral structural research
F/F 542.2 Institutional structural change
F/F 542.3 Industry research

F/F 543 Theory of industrial production
F/F 544 Evaluation of work and technology

F/F 55 Target groups and clientele

F/F 551 Occupational socialization

F/F 551.0 General. Summary and overall presentations
F/F 551.1 Young people
F/F 551.2 Women
F/F 551.3 Employees
F/F 551.4 Skilled workers
F/F 551.5 Training impaired. Education Disadvantaged

F/F 552 Training advice. Career orientation. Career choice

F/F 56 Labor market and qualification

F/F 561 Qualification research

F/F 561.0 General. Summary and overall presentations
F/F 561.1 Key qualifications

F/F 562 New technologies
F/F 563 Labor market development
F/F 564  Labor market statistics

F/F 57  Further education. Organizational and personnel development

F/F 571  Further education

F/F 571.1  Continuing professional education
F/F 571.2  In-company training
F/F 571.3  Training management. Education controlling system
F/F 571.4  Training staff
F/F 571.5  Training needs
F/F 571.6  Adult education
F/F 571.7  Continuing higher education

F/F 572  Organizational development

F/F 572.1  Theory of organizational development
F/F 572.2  Methods of organizational development
F/F 572.3  Organizational learning

F/F 573  Human resources development

F/F 573.1  Theory of Personnel Development
F/F 573.2  Leadership skills
F/F 573.3  Methods of personnel development

F/F 58  Teaching. Learning. Innovate. Advise

F/F 581  Curriculum theory of vocational education

F/F 581.1  Curriculum theory. Curriculum theory and syllabi
F/F 581.2  Training plans

F/F 582  Didactics of vocational teaching and learning

F/F 582.1  Theories and models of didactics
F/F 582.2  Teaching and training methodology
F/F 582.3  Exam psychology and methodology
F/F 582.4  Communication and interaction

F/F 583  Theory of motivation with special consideration of work and occupation

F/F 584  Media use in vocational education and training
F/F 585  Methodology of vocational teaching and learning. Teaching and learning forms
F/F 586  Subject didactics

F/F 586.0  General technology didactics
F/F 586.1  Metal Technology. Mechanical engineering
F/F 586.2  Electrical engineering
F/F 586.3  Economy, Administration and management
F/F 586.4  Commercial Jobs. Occupations in retail
F/F SCIENCE. CULTURE. CULTURAL STUDIES. EDUCATION SCIENCES

F/F 586.5 Horticulture and agriculture
F/F 586.6 Nutrition and home economics
F/F 586.7 Construction technology and design
F/F 586.8 Health and care
F/F 586.9 Chemistry professions

F/F 588 School management

F/F 588.1 School and organizational development
F/F 588.2 Teacher training
F/F 588.3 Project management

F/F 589 Professionalisation

F/F 59 Miscellaneous

F/F 591 Vocational training in international comparison
F/F 592 Environmental learning in vocational education

F/F 6 Communication studies
F/F 600 General. Summary and overall presentations
F/F 601 History
F/F 602 Communication theory
F/F 604 Education. Job. Organization
F/F 612 Communication processes
F/F 615 Reading research. Readers research. Media impact
F/F 616 Research of writing processes. Creative writing
F/F 620 Communication and society
F/F 630 Mass communication and mass media. Media research
F/F 631 Public
F/F 632 Public opinion. Opinion research

P. 0 General ................................................................. 131
P. 1 Economics in general. Business education. History and methodology of economics 131
P. 2 General business studies. Corporate management ........................................ 132
P. 3 Controlling. Corporate accounting. Auditing and trusteeship ..................... 133
P. 4 Decision and game theory. Microeconomics. Spatial theory and spatial policy .. 133
P. 5 Financing and financial markets ......................................................... 134
P. 6 Labor economics. Labor markets. Human resources ................................ 135
P. 7 Marketing ............................................................................. 136
P. 8 Production management. Supply chain management and logistics ............. 137
P. 9 Quantitative and computer-aided methods. Operation Research. Operating computer science ......................................................... 138

P. 0 General

P. 010 Bibliographies. Sourcebooks
P. 030 Journals. Series
P. 040 Reference books. Table works
P. 050 Dictionaries. Abbreviations. Formula directories
P. 060 Teaching aids. Study materials. School books

P. 1 Economics in general. Business education. History and methodology of economics

P. 10 General. Biographies

P. 12 Overviews

P. 120 General
P. 121 Publications until 1925 later new editions
P. 122 Werkausgaben. Collections of individual authors
P. 125 Methodology
P. 126 Policy advice. Business journalism

P. 13 Related disciplines

P. 132 Economic sociology. Industrial sociology
P. 135 Law and Economics
P. 14 Education. Studying and working

P. 140 General
P. 141 Business education. Business didactics
P. 143 Studying and working. Candidature
P. 145 Country studies. International comparisons

P. 15 History of Economics

P. 150 General
P. 151 Overviews
P. 152 History until 1925
P. 153 History from 1925
P. 155 History of socialist economic theory
P. 156 Individual doctrines

P. 2 General business studies. Corporate management

P. 20 General and interdisciplinary presentations
P. 21 Overviews. Miscellaneous

P. 22 Corporate management. Strategic management. Consulting. Marketing strategy

P. 220 General
P. 221 Management in general. Human resources management. Corporate culture. Corporate identity
P. 222 Strategic management. Strategic planning. Strategic controlling. Risk management
P. 223 Organization. Organizational behavior
P. 224 Corporate takeovers

P. 23 Theory of the enterprise. Economic theory of organization

P. 230 General
P. 231 Production and cost theory. Cost structure and organization
P. 232 Transaction costs approach. Theory of the rights of disposal. Economic theory of institutions
P. 24  Competition theory and competition policy. Industrial economics

P. 240  General
P. 241  Overviews
P. 242  Industrial policy. Structural policy. Regulation: General
P. 243  Medium-sized economy. SME policy. Crafts
P. 244  Country studies and international comparisons

P. 3  Controlling. Corporate accounting. Auditing and trusteeship

P. 30  General
P. 31  Corporate accounting

P. 32  Operative controlling. Management accounting. Performance indicators

P. 320  General
P. 321  Management information systems

P. 33  Project Controlling. Project management

P. 330  General

P. 34  Cost accounting. Performance accounting

P. 340  General

P. 35  Accounting and balance sheet. Corporate disclosure

P. 350  General
P. 351  Country studies. International harmonization

P. 36  Auditing and trusteeship

P. 360  General

P. 4  Decision and game theory. Microeconomics. Spatial theory and spatial policy

P. 40  General and interdisciplinary presentations
P. 41  General

P. 42  Decision theory. Decision analysis. Experimental economic research

P. 420  Decision theory
P. 421  Methods for decision-making
P. 422  Information choice. Bayesian decision-making theory
P. 423  Game theory

P. 423.0  General
P. 423.1 Non-cooperative game theory
P. 423.2 Cooperative game theory
P. 423.3 Bargaining theory

P. 424 Experimental decision-making and economic research

P. 43 Theory of the household. Welfare economics. Intertemporal economics. Distribution theory and distribution policy

P. 430 General
P. 433 Economic theory of politics. Social choice
P. 435 Distribution theory and distribution policy

P. 44 General equilibrium theory. Imbalance theory

P. 440 General
P. 441 Input-output model

P. 45 Spatial economics. Regional policy. Regional planning

P. 450 General
P. 451 Location theory
P. 452 Regional policy. Regional planning. Land policy
P. 453 Urban economics

P. 453.0 General
P. 453.1 Municipal economic development

P. 454 Country studies. International comparisons

P. 5 Financing and financial markets

P. 50 General

P. 51 General and interdisciplinary presentations

P. 510 General
P. 511 Legal forms of the enterprise
P. 512 Special financing events
P. 514 Financial theory. Capital structure. Distribution policy
P. 515 Financing forms and institutions. Information economics of financial contracts
P. 516 Financial management. Cash management models
P. 517 Wealth management
P. 518 International financial management

134
P. 52  Portfolio management. Asset valuation. The theory of financial markets

P. 520  General
P. 521  Portfolio selection
P. 522  Business valuation. Mergers and acquisitions

P. 53  Empirical capital market research. Capital market theoretical balance sheet research

P. 530  General
P. 531  Theory and Forecast of stock market performance
P. 532  Securities analysis

P. 54  Financial institutions

P. 540  General

P. 55  Country studies. International comparisons

P. 550  General

P. 6  Labor economics. Labor markets. Human resources

P. 61  General and interdisciplinary presentations

P. 62  Economics of Education. Human capital

P. 620  General

P. 63  Labor market theory. Labor market policy

P. 630  General
P. 631  Labor market organization. Collective bargaining
P. 632  Labor market structure. Submarkets. Corporate labor markets
P. 633  Mobility in the labor market
P. 634  Unemployment
P. 635  Structural change and the labor market
P. 636  Future of work. Working hours. Vacation
P. 637  Wage theory and wage policy. Wage systems

P. 637.0  General
P. 637.1  Wage formation processes. Collective bargaining policy
P. 637.2  Job evaluation. Wage forms

P. 638  Country studies. International comparisons
P. 64  Ergonomics. Personnel management

P. 640  General
P. 641  Ergonomics. Working conditions. Labor organization
P. 642  Personnel planning
P. 643  Occupational pensions. Company social policy

P. 65  Labor relations. Works constitution

P. 7  Marketing

P. 70  General

P. 71  Overviews. Compilations

P. 710  General
P. 711  Interdisciplinary basics
P. 712  Marketing and society. Consumer protection
P. 713  Marketing planning

P. 72  Marketing theory

P. 720  General

P. 73  Market research. Consumer behavior

P. 730  General

P. 74  Marketing tools

P. 740  General
P. 741  Product management. Product innovation
P. 742  Pricing policy. Price theory
P. 743  Advertising. Communication
P. 744  Distribution. Sale

P. 75  Specialized marketing

P. 750  General
P. 751  Consumer goods marketing of specific companies or industries
P. 752  Industriegütermarketing
P. 753  Trade marketing
P. 754  Service marketing
P. 755  Non-profit marketing
P. 76  International marketing

P. 760  General

P. 77  Brand policy. Branding

P. 770  General

P. 78  Direct marketing

P. 780  General

P. 79  Case studies. Multimedia presentations

P. 790  General

P. 8  Production management. Supply chain management and logistics

P. 80  General

P. 81  General and interdisciplinary presentations

P. 82  Logistics

P. 820  General

P. 821  Logistics concepts

P. 83  Strategic production management

P. 830  General

P. 84  Quality management. Quality control. Value analysis

P. 840  General

P. 85  Capacity planning. Asset management. Maintenance

P. 850  General

P. 86  Site planning. Facility layout. Routing

P. 860  General
P. 87  Production planning. Production Control

P. 870  General
P. 871  Information systems and computer applications

P. 88  Warehousing. Stockkeeping

P. 880  General

P. 9  Quantitative and computer-aided methods. Operation Research. Operating computer science

P. 90  General

P. 91  Mathematical methods. Optimization. Operations research

P. 910  General
P. 911  General. Overviews. Miscellaneous
P. 912  Combinatorics. Graphs. Networks
P. 913  Analysis. Differential and integral calculus
P. 914  Linear algebra. Linear optimization
P. 915  Mathematical optimization

P. 915.0  General
P. 915.1  Convex sets. Nonlinear programming
P. 915.2  Non-convex optimization
P. 915.3  Integer optimization

P. 916  Numeric methods
P. 917  Systems theory

P. 917.0  General
P. 917.1  Dynamic systems. Dynamic optimization. Control theory
P. 917.2  Cybernetics. Control theory
P. 917.3  Hierarchical systems

P. 92  Probability theory. Stochastics

P. 920  General
P. 922  Stochastic processes. Stochastic integration

P. 922.0  General
P. 922.1  Reliability theory. Renewal theory. Survival distributions
P. 922.2  Queues. Queuing networks

P. 923  Statistical methods. Multivariate procedure

P. 923.0  General
P. 923.1 General representations of statistical methods
P. 923.2 Regression analysis
P. 923.3 Analysis of variance
P. 923.4 Factor analysis
P. 923.5 Cluster analysis
P. 923.6 Discriminant analysis
P. 923.7 Causal analysis, path analysis
P. 923.8 Multidimensional scaling, composite measurement
P. 923.9 Analysis of nominal data

P. 924 Time series analysis. Quantitative forecasting methods

P. 925 Econometrics

P. 925.0 General
P. 925.1 General representations of econometrics
P. 925.2 Econometric methods and models
P. 925.3 Microeconometrics
P. 925.4 Individual macroeconomic econometric models. Partial models
P. 925.5 Econometric market and pricing models

P. 926 Economic and social statistics
P. 927 Statistical and econometric software

P. 93 Computer-aided system analysis and system simulation

P. 930 General
P. 931 Simulation modeling approaches
P. 932 Simulation languages

P. 94 Decision support systems. Knowledge-based systems. Expert systems. Applications of artificial intelligence

P. 940 General

P. 95 Information management. Information systems in the company

P. 950 General
P. 951 Structure and process organization
P. 952 Computer networks. Distributed data management
P. 953 System design. System care
P. 954 Enterprise data models. Data integration
P. 955 Information systems for individual functional areas
P. 956 Information systems in individual industries

P. 956.0 General
P. 956.1 Trade. Enterprise resource planning systems
P. 956.2 Bank economy
P. 96  Data processing in business and administration

P. 960  General
P. 961  Overviews. Miscellaneous
P. 962  Information technology
P. 963  Office automation. Office communication
P. 964  Computer and society
Summary of the contents

Q. 1 Business studies and industry analyzes ................................................. 141
Q. 2 Public economics. Taxation ................................................................. 142

  Q. 251 Tax planning
  Q. 252 Tax effects
  Q. 253 Normative analyses of business taxation
  Q. 254 Tax success calculation
Q. 3  Foreign trade. Multinationals

Q. 31  Foreign trade theory and foreign trade policy

Q. 310  General
Q. 311  World economic order

Q. 311.0  General
Q. 311.1  International economic integration

Q. 311.10  General
Q. 311.11  EC

Q. 312  Location advantages. International competitiveness

Q. 32  Country studies and country comparisons

Q. 320  General

Q. 33  Instruments of foreign trade policy

Q. 330  General

Q. 34  International factor movements. Migration

Q. 340  General
Q. 341  Migration
Q. 342  Direct investment. Multinational ventures

Q. 35  International finance

Q. 350  General
Q. 351  International debt problem
Q. 352  International monetary arrangements and institutions

Q. 352.0  General
Q. 352.1  European monetary system

Q. 36  Macroeconomic aspects of foreign trade

Q. 360  General
Q. 37  Foreign trade markets and foreign trade objects
Q. 370  General

Q. 4  Demography. Social policy. Health economics. Environmental economics
Q. 41  Demography. Population economics
Q. 42  Social policy
Q. 43  Health economics
Q. 430  General
Q. 434  Demand for health services
Q. 435  Supply structure
Q. 436  Hospital management science

Q. 44  Environmental economics
Q. 440  General
Q. 441  Instruments of environmental policy
Q. 442  Environmental policy of the companies

Q. 5  Growth and development. Technical progress
Q. 51  Overviews. Miscellaneous
Q. 510  General
Q. 511  Limits to growth
Q. 512  Poverty
Q. 52  Growth theory. Capital theory
Q. 520  General

Q. 53  Country studies and international comparisons
Q. 530  General
Q. 531  Development in Germany since 1989
Q. 54  Growth policy and development policy
   Q. 540  General
   Q. 541  Investment policy
   Q. 542  Development policy. Development aid
   Q. 544  Economic problems of developing countries
   Q. 545  Development assistance

Q. 55  Technology and technical progress
   Q. 550  General
   Q. 552  Productivity measurement
   Q. 553  Technology assessment. Macroeconomic risk management
   Q. 554  Technology policy. Research management
   Q. 557  R&D in the company. R&D planning. project review

Q. 6  Economic systems
   Q. 61  General. Overviews. Miscellaneous

Q. 62  Country studies. International comparisons
   Q. 620  General

Q. 63  Market economy systems
   Q. 630  General

Q. 64  Socialist economies
   Q. 640  General

Q. 65  Other economic systems. Alternative economies
   Q. 650  General

Q. 66  System comparison
   Q. 660  General
Q. 7 Macroeconomics. Money, credit and currency. Economic policy

Q. 71 Macroeconomics

Q. 710 General
Q. 711 Macroeconomic models

R. 672 Ether law. Radio law
R. 673 Space Law
R. 674 Nuclear safety
R. 675 Maritime law
R. 676 Traffic Law

R. 68 Process procedures. Judicature
R. 680 General
R. 681 Types of procedures
R. 682 Details of the procedure
R. 683 Formalities of the proceedings
R. 684 Of evidence. Evidence. Witness envy
R. 685 Judgment. Vocation. Revision. Enforcement
R. 686 Court people. Lawyers
R. 687 Judicature

R. 7 Church law
R. 70 General
R. 71 Sources of Canon Law
R. 72 Individual contributions
Summary of the contents

Y. 0 General
Y. 010 Bibliographies
Y. 020 Biographies. History
Y. 030 Journals. Series
Y. 040 Reference books. Table works
Y. 050 Dictionaries. List of abbreviations. Formula boards
Y. 060 Teaching aids. Study materials. School books
Y. 070 Source directories. Compilations. Conferences. Congresses

Y. 1 Foundations of Computer Science. Theoretical Computer Science

Y. 10 Computer science in relation to people and society

Y. 11 General and comprehensive works

Y. 12 Mathematical foundations

Y. 14 Automata theory

Y. 17 Algorithms and data structures
Y. 2 Computer Engineering

Y. 20 General

Y. 21 Computer architecture

Y. 22 Processors

Y. 23 Peripheral devices and memory

Y. 24 Specific Computer Systems

Y. 26 Parallel data processing

Y. 28 Computer evaluation

Y. 29 Non-electronic data processing

Y. 3 Programming and Software

Y. 31 System software

Y. 311 Operating systems

Y. 311.0 General
Y. 311.1 *NIX
Y. 311.5 Windows

Y. 312 Other System Software

Y. 32 Programming languages

Y. 320 General
Y. 321 Machine-oriented programming languages. Machine language
Y. 322 High-level programming languages

Y. 322.01 Java
Y. 322.03 NET
Y. 322.04 C/C++
Y. 322.13 Markup Languages
Y. 322.14 Scripting languages
Y. 322.20 Other
Y. 33  Software development

Y. 331  Software Engineering
   Y. 331.0  Software Engineering for specific systems
   Y. 331.1  Programming, Modeling
   Y. 331.2  Methods and concepts of Software Engineering
   Y. 331.3  User interfaces
   Y. 331.4  Software quality

Y. 333  Microprocessor programming

Y. 34  Software systems
   Y. 340  General
   Y. 341  Software systems A-L
   Y. 343  Software systems M-Z

Y. 38  Multimedia systems

Y. 4  Applied Computer Science
   Y. 41  Computer graphics

Y. 42  Text and document processing

Y. 43  Information systems
   Y. 431  Databases
      Y. 431.0  General
      Y. 431.1  Database software
      Y. 431.2  Relational database systems
      Y. 431.3  Other database systems
      Y. 431.4  Distributed databases
   Y. 434  Information systems in organizations

Y. 44  Computer simulation
Y. 45  IT Management

Y. 46  Distributed systems. Web Engineering
Y. 460  General
Y. 461  Computer networks
Y. 462  Reference architectures
Y. 463  Internet. Web Engineering

Y. 47  IT Security

Y. 48  Real-time computing

Y. 49  Other applications

Y. 5  Artificial Intelligence. Intelligent data analysis

Y. 50  General

Y. 51  Inductive and deductive systems

Y. 52  Machine Learning. Expert systems

Y. 53  Recognizing systems

Y. 54  Speech processing

Y. 55  Neural data processing
